

**VERSION WITH MARKINGS TO SHOW CHANGES**

**In the specification:**

The paragraph number [0027] on page 5 has been amended as follows:

Fig. 15 [16] is an isometric view of a camera interface unit according to the present invention.

The paragraph number [0028] on page 5 has been amended as follows:

Fig. 16 [17] is an electrical block diagram of a camera interface unit according to the present invention.

The paragraph number [0053] on page 12 has been amended as follows:

Referring now to Fig. 15 [16], the box of camera interface unit 134 includes opening for multi-pin connector 220, power in/video out 222, video in 224, camera power 226, remote camera switch 228, and zoom/iris/focus 230.

The paragraph number [0053] on page 12 has been amended as follows:

Referring now to Fig. 16 [17], the multi-pin connector 210 of camera interface unit 134 is coupled to power in/video out 222, video in 224, camera power 226, remote camera switch 228, and zoom/iris/focus 230.

**RESPONSE**

The Examiner has objected to the originally filed drawings as not being electronically reproducible. Upon review of the original drawings, applicant has determined that original Fig. 15A-15F and 18A-18D are not electronically reproducible and are redundant of original Fig. 13 and Fig. 16, respectively. Therefore, applicant has requested that original Fig. 15A-15F and 18A-18D be deleted. Applicant has also submitted new drawing sheets that applicant believes are in

compliance with 37 CFR 1.84(e), as cited by the Examiner. Applicant reserves the right to resubmit drawings as necessary to be in compliance with all regulations.

The Examiner has also objected to the originally filed application as missing parts, specifically, the signed oath or declaration. Applicant herewith submits the missing parts

Respectfully Submitted,

Andrew Choung  
Reg. No. 46,622
